

SVHC Statement by Arizona Chemical

Dear Customer,

Substances of Very High Concern (SVHC's) are described in a list published by the European Chemicals Agency, and can be found on their website at:

http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp

This was last updated 19th December 2011.

Substances requiring Authorisation under REACH are listed in Annex XIV of the Regulation and also these can be found listed on the ECHA website at:

http://echa.europa.eu/reach/authorisation_under_reach/authorisation_list_en.asp

This was last updated on 18th February 2011

None of the substances featured on the above mentioned lists are contained in any product of Arizona Chemical in detectable quantities.

Issue Date: January 10th 2012

Issued By: Ida Baglien, Product Regulatory Chemist

Signature: 

Address: Mässvägen 15, 820 22 Sandarne, SWEDEN.

Validity: This statement consists of 1 page and is valid at the date of issue.
